

Fold your own ^{FOR} DUMMIES' origami shirt

No-one knows the origins of this design, which seems to go back 30 years or so. It works from most narrow rectangles and any note in your wallet will also make a great shirt. This is a perfect example of how origami can capture a subject with just a few folds – in this case six, although you don't even really need the first crease!

- 1 Cut or tear off the bottom half of this sheet. Fold it in half vertically, crease and unfold
- 2 Fold the left and right sides to the centre
- 3 Unfold two corners at the bottom to match the dotted lines
- 4 Fold a small strip behind at the top
- 5 Fold the two upper corners to meet in the centre, just below the top edge
- 6 Fold the lower edge upwards and tuck it under the corners of the collar
- 7 Your ^{FOR} DUMMIES' shirt is complete!
